Dear Sertorio M Mshothola

I read your details from Martin Hatchuel's column in Barefoot. Good luck and keep up the good work. I am based in Victoria Falls and will be quite happy to take care of your clients should they want to go beyond, Mpumalanga and visit Victoria Falls. I have seen blind people visit the falls and what they do is listen to the thunder and feel the spray, when you explain and give them more details, history and statistics its like you have opened their eyes. What you are doing is just great and goes beyond making a living but broadening other people's experiences. It's great; keep it up and all the best.

Regards

Liz Mafuso
